

LIST OF LANEWAYS

NOTE: Map coordinates denote the point at which a laneway branches off a street. For lanes with two street openings, coordinates are given for both (e.g. H4,5).

In crowded quarters of the city, several lanes may share the same map coordinates. To pinpoint *exact* locations, I recommend Troedel's (1907) or Morgan's (c. 1955) maps of Melbourne. Both can be viewed online at State Library Victoria.
